

Dear colleagues and friends.

On behalf of the European Educational Publishers Group and all its members, I'd like to congratulate Prosveta on 75 years of providing excellent educational materials to generations of Bulgarian pupils and students.

The EEPG is a network of educational publishers and content providers from all over Europe and Prosveta has been a valued member of the group for 11 years.

During these years Prosveta has been a major contributor to the activities of the group. They have hosted several network meetings in Sofia at which members could exchange ideas on new developments in the educational landscape, most recently in early 2019 when the EU commissioner for Digital Economy and Society Mariya Gabriel gave the opening address.

Prosveta has been instrumental in many EEPG campaigns to guarantee excellence in educational standards and quality of learning materials. They regularly participate in the competition for the Best European Materials Award and the fact that last year they received prizes for two products shows the excellent quality of their materials created by a team of dedicated authors, advisors, editors and programmers.

We are very happy to have Prosveta on the management board of the EEPG and look forward to many more years of fruitful cooperation - and of course to seeing more of their excellent products.

Helga Holtkamp
Director of EEPG
